Premier™ Potassium Chloride

Premier™ Potassium Chloride is a go-to solution for developing reduced-sodium food products while maintaining the functional benefits and flavor of salt.

Premier™ Potassium Chloride is a granular, food grade, odorless, white crystalline salt with a typical saline-like taste. Premier™ Potassium Chloride was developed to meet the needs of food manufacturers for replacement of sodium chloride or potassium enrichment in a wide range of food processing applications. Contains tricalcium phosphate as an anti-caking agent.
