

FlakeSelect® Potassium Chloride/Salt 50-50 Fine

Product Description

FlakeSelect® Potassium Chloride/Salt 50-50 Fine

This material is a precisely screened, fine, compacted, food grade, odorless, white crystalline potassium salt and sodium chloride that provides 50% less sodium than regular salt. The blend can be used as a direct replacement for salt in food processing operations where sodium reduction is desired up to 50% while maintaining many of the functionalities of salt.

Product Application

This material is intended for a variety of food processing applications, including control of fermentation in yeast-raised baked goods, incorporation as a dough salt for cracker manufacture, blending with spices, seasonings, soup bases and gravy mixes, and extraction of salt soluble proteins in sausage manufacture. It is especially well suited for processes requiring rapid solubility. This material contains Tricalcium Phosphate, which is added to improve caking resistance and flowability.

Product Certifications

Cargill FlakeSelect® Products meet USDA, FDA and Food Chemicals Codex for food use.

Cargill FlakeSelect® Products are certified Kosher for Passover (OU-P) by the Orthodox Union.

Allergen Status

In accordance with the 2004 USA Food Allergen Labeling and Consumer Protection Act (FALCPA), no allergen declarations are required for this product.

Storage and Shelf Life

Salt products do not have a shelf life in the traditional sense. Salt will not spoil or support pathogenic growth. Please see the following information regarding Shelf Life, Caking Resistance, and Storage conditions:

Shelf Life: Indefinite

Caking Resistance: Caking resistance varies depending on the crystal size, additives and storage conditions. End use application should be taken into consideration when determining acceptable product life in regards to caking resistance. Cargill FlakeSelect® Potassium Chloride/Salt 50-50 Fine has an estimated caking resistance of 9-12 months.

Storage Conditions: To improve caking resistance, product should be stored in a dry, covered area at humidity below 75%.

Physical Information

FlakeSelect® Potassium Chloride/Salt 50-50 Fine

PHYSICAL	MIN	TARGET	MAX
NaCl (%)	48	50	52
KCl (%)	48	50	52
Bulk Density (#cu/ft)	50	61	70
Bulk Density (g/l)	800	977	1120
Surface Moisture (%)	0	0.02	0.1
TCP (%)	0	1.25	2

PERCENT PARTICLE SIZE DISTRIBUTION (SCREENS)	MIN	TARGET	MAX
Sieve - USS 40 Mesh Retained	0	4.3	10
Sieve - USS 50 Mesh Retained	0	56.6	
Sieve - USS 100 Mesh Retained	0	36.1	
Sieve - Retained on Pan	0	1.3	10

Reduce Sodium and Increase Potassium Together

Using Cargill's **FlakeSelect®** Potassium Salt Products as a salt replacer not only helps reduce sodium in foods, but may also help increase potassium.

The 2015 Dietary Guidelines for Americans recommend decreasing sodium intake to less than 2,300 mg per day and increasing potassium intake to 4,700 mg per day, as part of a healthy eating pattern and lifestyle.*

Naturally Occurring Potassium Levels in Some Foods[†]

Food	Potassium (mg per 100 gm)
Blueberries	77 mg
Cracked Wheat Bread	177 mg
Banana - Raw	358 mg
Almonds	733 mg
Pistachios	1007 mg
Molasses	1464 mg

Food	Typical Sodium and Potassium Amounts	30% Reduced Sodium with FlakeSelect® [‡]
Deli Ham	Sodium = 1249 mg per 100 gm Potassium = 260 mg per 100 gm	Sodium = 874 mg per 100 gm Potassium = 747 mg per 100 gm
Crushed Tomatoes	Sodium = 186 mg per 100 gm Potassium = 293 mg per 100 gm	Sodium = 130 mg per 100 gm Potassium = 366 mg per 100 gm
Chicken Noodle Soup	Sodium = 349 mg per 100 gm Potassium = 22 mg per 100 gm	Sodium = 244 mg per 100 gm Potassium = 158 mg per 100 gm

Why Cargill?

- Salt products are an integral part of Cargill – one of the world's largest food ingredient providers and a recognized leader in the food processing industry.
- Our products go well beyond standard and high purity salt: Our Alberger® brand, Microsized®, Premier™, CMF®, sea salts, and our sodium reduction solutions such as Potassium Pro® and FlakeSelect®, make up the most extensive product line in the Industry.
- All products are produced under HACCP manufacturing practices and audited by a third party food safety firm.
- We offer full EDI capabilities for customers who need to exchange information via Electronic Data Interchange and the only online ordering portal in the industry, www.cargillsaltstore.com.
- Cargill's nationwide distribution capabilities, combined with the best logistics and customer service specialists in the business, ensure that you get the right salt at the right time.
